B.2 OPTION TO EXTEND--SERVICE CONTRACT (GSFC 52.217-93) (DEC 1992)

This Contract may be extended at the option of the Government in accordance with FAR clause 52.217-9, "Option to Extend the Term of the Contract" in Section I. The option periods and prices or costs and any fees are as follows:

<u>Optio</u>	n Period	Cost	Fee	Total Value of Option
1	Extend the Period of Performance by 24 Months	\$13,939,291	\$1,030,640	\$14,969,931

- B.3 ESTIMATED COST INCREASES (GSFC 52.232-94) (SEP 1998)
- (a) The requirements of this clause are in conjunction with the Limitation of Cost clause or the Limitation of Funds clause of this Contract.
- (b) The Contractor shall notify the Contracting Officer in writing when the Contractor has reason to believe that the total cost for performance of this Contract, exclusive of any fee, will be either greater or substantially less than the total estimated cost stated in this Contract. Notification shall not be delayed pending preparation of a proposal.
- (c) A proposal is required to support an increase in the estimated cost of the Contract. The proposal should be submitted as soon as possible after the above notification but no later than 115 days before the incurred costs are expected to exceed the estimated cost. This will allow adequate time for the Government to evaluate the proposal and to mutually establish any increase in estimated cost with the Contractor.
- (d) (1) The proposal shall be submitted in the following format unless some other format is directed or approved by the Contracting Officer:

Incurred costs to date
Projected cost to completion
Total cost at completion
Current negotiated estimated cost
Requested increase in estimated cost

- (2) The "projected cost to completion" shall consist of the following "other than cost or pricing data" unless the Contracting Officer requests or approves the submittal of a greater or lesser amount of information:
- (i) Elements of cost with supporting detail for estimated direct labor hours, direct and indirect rates, materials and subcontracts, and other elements.
- (ii) Supporting explanation for the increases and projections, sufficient for the Government to understand the reasons for the increased estimated cost.

B.4 ESTIMATED COST, INCENTIVE, AWARD FEE (CPIF/AF)

The estimated cost of this Contract is \$23,949,894. The maximum available award fee is \$1,348,610. The maximum downward adjustment for cost overruns shall not be less than the cost incentive fee and earned award fee. The target cost incentive fee is \$449,537. The maximum cost incentive fee is \$899,074. Total estimated cost, maximum incentive fee, and maximum award fee are \$26,197,578.

(End of Text)

B.5 COST INCENTIVE

- (a) INCENTIVE FEE AND AWARD FEE: This is a cost-plus-incentive fee/award fee contract. The contractor's cost performance under this contract is evaluated based on a cost incentive. The award fee elements are evaluated in accordance with clause G.4 AWARD FEE FOR SERVICE CONTRACTS and cover only the contractor's technical performance under this contract.
 - (1) The total incentive fee pool shall equal 25% of the total available fees under this contract. An incentive fee will be determined and paid at the end of each sixmonth period that coincides with each service forecast and approved operating plan. The incentive fee calculation is final for each six-month period. Unearned incentive fees will not be made available for future evaluation periods. The incentive fee determination is made based on the share ratios identified in paragraph (c) of this provision.
 - (2) The total available award fee shall equal 75% of the total available fees for this contract. Cost performance will not be considered in the award fee evaluations.

(b) TARGET COST, TARGET INCENTIVE FEE, MINIMUM INCENTIVE FEE AND MAXIMUM INCENTIVE FEE: A target cost, target incentive fee, minimum incentive fee and maximum incentive fee will be established at the onset of each six month period coinciding with the issuance of the service forecast and the approval of the operating plan. The target cost will utilize current staffing and resource estimates at the indirect rates in Section J, Attachment E negotiated at contract award. The maximum incentive fee, the minimum incentive fee, and target incentive fee for each service forecast period shall be determined based on the following percentages, which are consistent with the fee ratios in Clause B.4:

Minimum Incentive Fee - The maximum downward adjustment for cost overruns shall not be less than the cost incentive fee and the earned award fee.

Target Incentive Fee 2.0%

Maximum Incentive Fee 4.0%

At the beginning of each service forecast period, a target cost, target fee, minimum fee and maximum fee will be established by mutual agreement for that period based on the staffing and resources estimates in the approved operating plan required by clause H.7 SERVICE FORECASTS AND OPERATING PLANS. Note that clause H.7 requires the submission of a projected budgetary cost based on current indirect rates in addition to the target cost required by this clause which utilizes the indirect rates in Section J, Attachment E. At the conclusion of the service forecast period, the contractor's actual cost for the period will be compared to the target cost established at the beginning of the period. The incentive fee for each period will be determined based on the following:

- (1) Target $Cost_{PX}$ = Target Cost for the evaluation period.
- (2) Actual $Cost_{PX}$ = Actual Cost for the evaluation period.
- (3) Cost Difference = Target $Cost_{PX}$ Actual $Cost_{PX}$; if the actual is greater than the Target $Cost_{PX}$ this will result in a negative value for the cost difference.
- (4) Fee Adjustment = Cost Difference * Fee Adjustment Factor
- (5) Fee Earned = Target Fee +/- Fee Adjustment

- (6) The Fee Earned for each period shall not be less than the minimum fee or greater than the maximum fee established for that service forecast period.
- (c) Incentive Fee Adjustment Factor: The Fee Adjustement Factor utilized to arrive at the incentive fee determination is directly related to the contractor's award fee score during that period. The Fee Adjustment Factor and incentive fee determination also vary based on whether the actual costs at the end of the period result in an overrun or underrun for that service forecast period. Therefore, the Fee Adjustment Factor and incentive fee determination are based on the following:

Incentive Structure

Award Fee Score 100-91	Fee Adjust Factor for CU (%) 10	Fee Adjust Factor for CO (%) 10	
90-81	10	15	CU = Contractor underrun
80-71	5	20	
70-61	5	25	CO = Contractor overrun
<61*	0	0	

- * The Contractor will not receive any incentive fee during an evaluation period where the award fee score is less than 61.
- (d) Revisions to the Service Forecast and Operating Plan: If the service forecast is revised during the six-month service forecast period, the target cost, target fee, minimum fee, and maximum fee will be revised by the Contracting Officer to reflect the changes based on the revised, approved operating plan.
- (e) The decisions made as to the amount of cost incentive are subject to the disputes clause.

(End of Text)

- B.6 CONTRACT FUNDING (18-52.232-81) (JUN 1990)
- (a) For purposes of payment of cost, exclusive of fee, in accordance with the Limitation of Funds clause, the total amount allotted by the Government to this Contract is \$1,000,000. This allotment is for cost and covers the following estimated period of performance: through January 21, 2000.
- (b) An additional amount of \$0 is obligated under this Contract for payment of fee.

(End of clause)

- B.7 NONPROPOSED COSTS (GSFC 52.216-94) (FEB 1991)
- (a) The total estimated cost of this Contract includes the following estimated costs:

Cost Element		Estimated Cost
Basic		•
Travel		\$1,016,679
Material		\$21,330
Miscellaneous	ODC	\$46,077
Option 1		
Travel		\$677,786
Material		\$14,220
Miscellaneous	ODC	\$30,718

(b) These costs are the Government's best estimate of what the actuals will be. There will be no adjustment in the fee(s) of the Contract should the actuals be different than these estimates, unless additional effort is added to the Contract or there is a change to the Contract under the Changes clause of this Contract which impacts these estimates.

(End of clause)

If the Contracting Officer agrees that the property is still needed for contract performance and that repair is an acceptable alternative, the Contracting Officer may authorize the repair. If the Contracting Officer considers that repair is not an acceptable alternative, the Contracting Officer shall notify the Contractor and the replacement equipment or needed equivalent capability shall be provided by the Contractor in accordance with paragraph (b) above. ** Fringe Benefits Required For All Occupations Included In This Wage Determination **

HEALTH & WELFARE: Life, accident, and health insurance plans, sick leave, pension plans, civic and personal leave, severance pay, and savings and thrift plans. Minimum employer contributions costing an average of \$2.56 per hour computed on the basis of all hours worked by service employess employed on the contract.

VACATION: Two weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years; 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractor in the performance of similar work at the same Federal facility. (Reg. 4.173)

HOLIDAYS: Minimum of ten paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

1/ Does not apply to employees employed in a bona fide executive, administrative, or professional capacity as defined and delineated in 29 CFR 541. (See 29 CFR 4.156)

APPLICABLE TO AIR TRAFFIC CONTROLLERS ONLY - NIGHT DIFFERENTIAL: An employee is entitled to pay for all work performed between the hours of 6:00 P.M. and 6:00 A.M. at the rate of basic pay plus a night pay differential amounting to 10 percent of the rate of basic pay.

WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employee (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday preium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry

employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$4.25 per week (or \$.85 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** NOTES APPLYING TO THIS WAGE DETERMINATION **

Source of Occupational Titles and Descriptions:

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fourth Edition, January 1993, as amended by the Second Supplement, dated August 1995, unless otherwise indicated. This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C) (vi) } When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

The purpose of this standard is to establish the minimum office automation workstation software suite required to support interoperability, establish interface and product standards for components of the software suite operating on PC or MAC, and establish reporting metrics for determining overall NASA interoperability.

Requests for information, corrections, or additions to this standard should be directed to the John Glenn Research Center (GRC), the Principal Center for Workgroup Hardware and Software, Code 7100, MS 142-2, Cleveland, OH, 44135. Requests for additional copies of this standard should be sent to NASA Engineering Standards, EL01, MSFC, AL, 35812 (telephone 205-544-2448). This and other NASA standards may be viewed and downloaded, free-of-charge, from our NASA Standards Homepage: http://standards.nasa.gov.

MINIMUM OFFICE AUTOMATION SOFTWARE SUITE INTERFACE STANDARDS AND PRODUCT STANDARDS

1. SCOPE

1.1 <u>Purpose and Scope</u>. This standard is to establish the minimum office automation workstation software suite required to support interoperability, establish interface and product standards for components of the software suite operating on PC or MAC, and establish reporting metrics for determining overall NASA interoperability.

Software standards for UNIX platforms are addressed by NASA STD-2810, UNIX Interoperability.

1.2 <u>Applicability</u>. All Center CIO's will ensure that all NASA employees have access to an interoperable workstation that is equipped with the following minimum software suite that meets the standards in Section 3 below:

Word Processing
Spreadsheet
Presentation
Electronic Mail
IFMP
Calendar/Scheduling
Basic Internet Client Suite (IP Stack, FTP, Telnet, Web Browser)

For the functions (components) identified with standard products, future procurements to support interoperability are restricted to these products and enterprise applications. Licenses for other products may not be renewed. Additional products will be added as required.

2. ACRONYMS AND DEFINITIONS

2.1 Acronyms

2.1.1	FTP	File Transfer Protocol
2.1.2	MIME	Multipurpose Internet Mail Extension
2.1.3	SMTP	Simple Mail Transport Protocol
2.1.4	TCP/IP	Transmission Control Protocol/Internet Protocol
2.1.5	WHS	Workgroup Hardware and Software
2.1.8	COTS	Commercial "Off-the-Shelf" product
2.1.7	CIQ	Chief Information Officer
2.1.8	QT	QuickTime
2.1.9	GIF	Graphics Interchange Format
2.1.10	JPEG	Joint Photographic Experts Group
2.1.11	IFMP	Integrated Financial Management Program

2.2 Definitions

- 2.2.1 <u>Freeware</u>. Product is available free of charge and is in the public domain. Freeware is distributed over the Internet from the vendor or another organization.
- 2.2.2 <u>Shareware</u>. Product is available for use typically at a nominal charge with specific license restrictions. Generally, users have the ability to test the product before purchase. Shareware is usually distributed over the Internet from the vendor.

3. DETAILED REQUIREMENTS

3.1 Architectural Compliance Requirements. NASA has baselined and approved an initial NASA Integrated Information Technology Architecture. The architecture is predicated on selecting standards for a broad and cost-effective infrastructure that provides for reliance on commercial off-the-shelf products as much as possible; interoperability both within and external to NASA; flexibility for future growth; and consistency with generally accepted consensus standards as much as feasible. Among these objectives, interoperability is one of NASA's most critical issues related to information technology.

At times, it is in NASA's best interest to specify commercial products as standards for an interoperable implementation of a particular set of related and integrated functions. In those instances, there are often other embedded functions or proprietary extensions within those products whose use may create higher-level interoperability conflicts when embedded in an application system that transcends basic interoperability. For that reason, NASA Centers and programs are advised to apply appropriate caution to the use of proprietary or non-standard extensions, features and functions of hardware or software that go beyond the standard functionality.

3.2 <u>Interface and Product Standards</u>. The following standards are established for the components of the office automation software suite:

Component	Interface Standard	Product Standard
Word Processing	MSWord 97/98 File	Word, WordPerfect
Spreadsheet	Excel 97/98 File	Excel, Lotus 123
Presentation	PowerPoint 97/98 File	PowerPoint
Electronic Mail	SMTP/NASA MIME Profile	PC - MS Exchange, MS Outlook, Eudora Pro, Netscape Communicator Mac - MS Exchange, Eudora Pro, Netscape Communicator
Calendar/Scheduling	VCAL ²	Netscape Calendar ³
Basic Internet Client Suite	See Tables I and II	See Tables I and II

² Limited interoperability provided by this interface standard

Product standards shall be Y2K compliant versions (e.g. Word 97 or 98, Excel 97 or 98, etc.)

All Center CIO's are responsible for providing an interoperable calendar/scheduling solution within their Centers. Netscape Calendar is recommended, but not required.

3.3 <u>Future Interface and Product Standards</u>. The Workgroup Hardware and Software (WHS) Principal Center is working to ensure interoperability at the highest possible revision of products included in the office automation software suite.

4. REVIEW AND REPORTING REQUIREMENTS

- 4.1 <u>Interoperability Implementation Reporting</u>. Each Center CIO will provide the NASA CIO with an annual progress report, outlining the progress in achieving minimum interoperability access for each NASA employee.
- 4.2 <u>Interoperability Reporting.</u> Each Center CIO will establish the necessary processes and tools, both manual and automated, to report on an annual basis to the NASA CIO the hardware and software configuration of all workstations and file servers at their respective Centers. These data will contain sufficient information to ascertain if the workstation or server supports NASA employees or is Government-furnished equipment to a contractor, whether the equipment is required to be interoperable, and a description of the hardware architecture/environment. The report will specify the number of NASA employees that do not have access to interoperable workstations.
- 4.3 <u>Interface and Product Standards Review Reporting</u>. The Principal Center for WHS will review this standard on an as-required basis, not to exceed 6-month intervals. Office automation software standards will be updated as required.

5. DURATION

5.1 <u>Duration</u>. This standard will remain in effect until canceled or modified by the NASA CIO.
